-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

Claims 1-17 are pending in this application.

### ***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-8, drawn to a method of screening for an inhibitor of the induction of the production of IL-18 in a living organism having an inflammatory skin lesion comprising the steps of inducing the production of IL-18 from a keratinocyte by administration of a stimulator and administering a candidate substance.

Group II, claim(s) 9, drawn to a therapeutic drug for an immune disease.

Group III, claim(s) 10, drawn to a method for inhibiting high-level IgE in the serum of a living organism comprising the use of an inhibitor or a therapeutic drug.

Group IV, claim(s) 11-13, drawn to a method for inducing atopic dermatitis-like symptom in a model organism by applying an irritant compound.

Group V, claim(s) 14 and 15, drawn to a model organism capable of developing an inflammatory skin lesion.

Group VI, claim(s) 16, drawn to a screening kit.

Group VII, claim(s) 17, drawn to a kit for inducing atopic dermatitis-like symptoms.

The inventions listed as Groups I-VII do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The special technical feature of the invention is the method of screening for an inhibitor of the induction of the production of IL-18 in a living organism having an inflammatory skin lesion comprising the steps of inducing the production of IL-18 from a keratinocyte by administration of a stimulator and administering a candidate substance. The special technical feature of the invention is not found throughout all of the groups of the instant application and therefore the Groups do not relate to a single inventive concept.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
